

The SoulCleanseSM Team

February 10, 2016

Before we begin our formal introductions, we would like to make it clear that our names in one essence, are fictitious. Each of us are known by many other names, depending upon one's cultural and spiritual background. In our truest essence, we are groups of beings, not single entities. Our roles through eons of time have changed somewhat, depending on the needs of those who reside in our sector of the uni-verse.

As more humans became aware of our existence, those who would like to keep the race suppressed have used our names as their own aliases. They have created much havoc and confusion, in our name. Thus, discretion must always be advised when you are "calling in" outside assistance.

For those who are working with Theresa Crabtree, to ensure that you get the beings you want to assist, you may call on us as, "The SoulCleanse team that works with Theresa Crabtree." If you do not call us in thusly, you are opening the door to imposters who may not have your best interests in mind.

With that said, let us now begin our introductions. Blessings, "Metatron"

METATRON

Our group is one factor of the organizers who are in charge of overseeing the Light and Dark actions of the sector of the uni-verse in which earth resides. Our powers are immense. We are able to "multi-locate," not in physical form, although a small fragment of our soul essence could manifest in physicality for a short period of time. It takes an enormous amount of energy for this to occur. Thus we remain in etheric form, retaining all knowledge, experience and wisdom attained since our original essence left the primordial sphere of complete Love and Light, that which you call "Source" among many other names.

Our pleasure and duty includes overseeing the entire universe in which you reside. Although we are often seen as a single being by most humans, we are actually much vaster. The human brain could not contain the thought of who and what we truly are. In our realm, we are what many call "Unity Consciousness," thinking, acting, creating and responding as one. In a similar fashion, we are like a Board of elected officials. We each have different duties, opinions, beliefs, experiences, etc. Yet when a matter is voted on, we act unanimously as "one" to move the project forward.

Our abilities are unlimited, except for non-interference or pushing our will upon others. We are non-judgmental, yet prefer to work for the "Light," for love is our true essence. We also understand, maintain and control the parameters of the "Dark". We do not judge nor condemn the Dark workers for we understand who they truly are, Light beings playing Dark roles, although many in the lower vibrational realms have forgotten their true essence. We understand this had to be in order for them to play their role. All will return to the Light.

As for parameters allowed by the Dark Forces, humans have been manipulated to the maximum allowed by those who created your uni-verse. This time frame has been known since the beginning of "time." However, if continued past the parameters, the unknown exists.

What is expected is that left untethered, the human race will be annihilated. This sets up the possibility for souls and/or fragments to be lost forever, unable to return to Source. Since the first group left Primordial Source, the main directive for all sectors, galaxies, uni-verses and multi-verses is that under no circumstances could any part of the Light ever be lost or extinguished.

With the Reptilean and other Dark Forces usurping so much control over humans, and with the misuse of crystalline and atomic weaponry, there now exists the possibility for souls and fragments to be lost or reach levels of darkness where they cannot be retrieved. Thus, we are now here to put an end to this extent of Darkness, allowing humans to return to the Light both in their etheric as well as their physical forms. This is being called the “Ascension Process” and is now in full swing. Many have come to earth expressly to help return those lost in the Dark, to find their way back to the Light.

In relation to The SoulCleanseSM process, our role is to keep all in balance, to open and close each session energetically and to provide protection for all during the session. This work is extremely valuable and needed on Earth. We have gathered many forces on both sides of the “Veil” to assist with this work.

ORION COUNCIL OF ARCTURIANS

We are one mass of Spirit, one energy field. As needed, we break off and segment into separate “clouds” or fields of energy to do the work. This is because the earth is too dense to support us as a whole. Thus, there are seven “fragments” of us that come when The SoulCleanse team is summoned. We could manifest physically, but it is not needed. To manifest takes a tremendous amount of “concentrated” effort and energy, which would be distracting. We work more fluidly as free-forming energy in a density field higher than the human eyes can see.

Many humans are blocked by their fears and created demons. More are hampered by rogue individuals and groups from off planet races whose intent is to use humans for their own agendas. These humans often recognize they have something within them that is blocking what they consciously desire.

During The SoulCleanse, our focus is on the removal of non-benevolent Reptilean and Mantis races that are causing disruption to humans who are ready to evolve. We assist with all other entities and energies, but these specific races are ones that only we can effectively remove. They are our specialty.

For eons, rogue Reptileans have been allowed to do their work unencumbered. There has always been Dark Forces since the inception of this uni-verse because this sector was set up to be a world of polarity. Currently however, the Dark Forces have too much control over humans, causing such an imbalance that the human race, as well as planet earth, is on the brink of destruction. Since the beginning of this uni-verse, it was deemed that this time would come, when interception from groups like ourselves would step in, under the direction and with permission from the Souls of physical humans, to assist with their release.

Keep in mind that due to free will, many humans choose to work on the “Dark Side.” Some of these humans make this choice out of fear, being blinded by the Dark Forces. Many others make this choice from the Soul level because it is their desire to play the role of the Dark Side during their incarnation. It is important not to judge those who appear to be evil, for no human truly knows the chosen mission of others or themselves. It must be this way in order to play the game.

ARCHANGEL MICHA-EL

Although often sensed as an individual, again we are a group of Beings who help protect and monitor activities on Earth and beyond. According to many mythologies, there is an eternal war being fought between “me” and my fallen brother, “Lucifer.” In the truest sense, this is not so, for no battles are waged in our level of existence. However, there are “Light” and “Dark” forces at play within the uni-verse in order to allow the experiences that were desired when this sector was created.

There is no battle to win, for we are all “One” and will return to “Source” when the time is appropriate. However, within this fantasy game, there are parameters and what was mentioned earlier is true. Under no circumstances can any part of the Soul be lost during this role-play. Much fracturing has already occurred which is why we are now coming to assist those who are stuck beyond their means to free themselves.

The “Dark” is not to blame, for they were “hired” by the “All” to play their roles. Indeed it is a mighty one who is all love within and plays the dark role without. Many humans unknowingly are doing the same thing. In their truest form, they are pure love and light, yet come to earth at times to play the bad guys out of an act of love for others who wish to experience what Not-Love feels like.

Our role on the Team is to provide protection for the facilitator and clients. We assist by removing and denouncing interfering Dark Forces and low energy entities, thoughtforms and beliefs. Those we have dominion over are given several opportunities to transform to the Light. Those who continue to resist against the human’s free will are removed and quarantined in a sector where they can no longer interfere with the human race. We are the ones who cut non-beneficial cords and ties during the SoulCleanse.

ARCHANGEL RAPHA-EL

As our name implies, our focus in the SoulCleanse is to heal the client of physical, mental and emotional dis-ease. We will not intercede unless the human’s Soul requests that we do so. We are responsible for clearing and removing the energetic debris that remains when the cords and ties are cut. We also assist the client’s MAP team including but not limited to physical ailments, energetic blockages, minor DNA repairs and “chakra” balancing. The chakra system has been highly misunderstood and much propaganda has developed as a means of creating chaos by the Dark Forces.

In essence, the chakras are swirls of energy that hold the blueprints of the human body. There is no need for them once a human reaches a certain level of awareness, thus you will be hearing more people talking about their removal. Never allow your chakras to be removed unless your Soul guides the process.

ANCIENT ONES (CHIEF)

Chief is the name I lovingly gave to this Supreme Be-ing because his appearance to me in dreams was as a fatherly male and because I couldn't pronounce the name he called himself. He is part of a group that call themselves the Ancient Ones. Chief is the Soul that created my human counterpart. "His" main role as a team member is to use me as his Ambassador to be the intercessor for humans who are guided to me.

Chief's team, in conjunction with Pan, balances the land where the client lives and works. He also communicates with any ancestral Keepers of the Land that are encountered during the SoulCleanses. It is not appropriate to whisk away these individuals without their consent, for many have not fulfilled their chosen role as protectors of the land or simply prefer to stay on the earth plane.

Chief consults with the Keepers of the Land to determine if it is appropriate for them to remain or to continue on with their spiritual progression. Acknowledgement to the Keepers of the Land for their dedication is always given.

THE CHRISTED ONES

The Christed Ones or Anointed Ones are a large group of Souls who have created humans that have reached a high level of mastery while on earth. Many call them Ascended Masters; every tradition speaks of them. There are several that assist during the SoulCleanse, helping in various ways. One specific task is to assist with the safe passage of Earthbound spirits. These are remnants of humans who have died and for various reasons did not fully cross over. They remain stuck in their death throes and cause much chaos and confusion.

The Christed Ones console and cajole the Earthbounds to leave. They will call in whoever it takes to convince the Earthbounds to leave this realm in order to continue with their spiritual progression. They are granted safe passage so that lurking Dark Force entities do not snatch them up. They also assist with the transmutation and expulsion of non-beneficial entities and energies, clearing and cleansing imbalances within the client's physical, mental and emotional bodies. They assist with all methods of healing and support. Many others view the Cleanse in order to learn about the work at hand.

Within the team, there are two main figures, one representing the masculine and one representing the feminine. Due to the usurping of male and female energies on earth, one client or Earthbound may be reluctant to accept assistance from a male figure, thus the feminine figure will give assistance and vice versa. Their specialty during the SoulCleanse is to assist with those who are stuck in this realm after their physical death. They also offer to stay with each client for a few days to assist with healing, guidance, support and comfort.

PAN

Pan is an ancient group of beings who oversee Nature Spirits on Earth. Pan is often mythologized as half man and half goat. Many not so light characterizations have been associated with him, all untrue. They are a very loving group and play an important role within the SoulCleanse for they are the only ones who have dominion over the Nature Spirits and Elementals.

There are many “dark” energies on the earth that are harmful to humans. Some of these consciously intend to do harm. Some are noxious to humans although they are beneficial to other species. To keep all in balance, the Pan team assesses then removes or balances the energies or nature spirits that are detrimental to the client or human race. At times, the client is suggested to move to a new location, for the noxious energies have a high purpose and will not be tampered with.

GALACTIC FEDERATION OF LIGHT

There is currently much propaganda and misinformation related to the GFL. Similar to all groups, there are many in the GFL who work for the light and many others who work for the dark. Use your discretion and never blindly call out for assistance from this group without knowing specifically who you are summoning. It is best not to call on this group unless your Soul does the summoning for you, under your request.

Oscar, is one of my main guides, having been with me throughout this incarnation. He has a specialized group of six assistants to help during the SoulCleanse. Their main focus is to assist the client gain their sovereignty from extra-terrestrial influences. They counteract and remove non-beneficial ETs, along with their hardware and programming, when requested by the Soul to do so.

When interference is detected, they will go to the Commander and have a conference to determine if this program has been ordained by the Soul. They have permission to send troops back to their ships, to be escorted out of Earth’s sector when they are in direct interference with the human race and other life forms on Earth. The GFL team members do not have dominion over certain races, such as the Reptileans and Mantis’s. These will be tended to by the Orion team.

SOUL OF THE CLIENT

The Soul, or Higher Self, holds the blueprint for the humans they have created. Some Souls create many incarnations, which is referred to as “past” lives. A much smaller number of Souls have created humans who are making their initial entry as humans. Many of these are having a difficult adjustment period and benefit greatly from the SoulCleanse.

Before beginning any SoulCleanse session, permission is first granted from the client’s Soul. Once this is granted, I make a direct energy connection with the Soul. In the blink of an eye, the Soul meets the SoulCleanse team and is briefed on each attendant’s role. The client’s Soul then directs the team during the session, giving permission or denial for each phase of the cleanse.

CLIENT'S M.A.P TEAM

Each human has a specialized team of medical specialists that oversee their every need while incarnated. This is part of what is called the Medical Assistance Program (MAP). During The SoulCleanse, the MAP team, under the direction of the client's Soul, assists with healing the spiritual, physical, mental and emotional bodies of the client. In addition, they perform the enhancement or reconfiguration of the DNA codes. They also help to harmonize and smooth out the imbalances after ET hardware, residuals and debris are removed.
